NOIDA IN NUMBERS.

- Noida and Greater Noida have attracted Rs 1.2 lakh Cr worth of investments in the last one year.
- Both cities currently possess 8 Data Centres with more centres due for launch in the near future.
- The state is responsible for fifty percent of the entire mobile phone manufacturing in India.
- Government aiming to make UP a one trillion dollars economy in the next 2 years.

A CITY BACKED BY THE GOVERNMENT.

Noida is the face of modern Uttar Pradesh. A sentiment that truly reflects in the policies and initiatives sanctioned by the government of Uttar Pradesh in favour of the most sought-after industrial destination in the country.

THE MODERN CITY PROGRAM - PARAMETERS

- Active investments in developing infrastructure, connectivity, water, sewerage, electricity and many more domains to further empower the city.
- Infrastructural development initiative such as metro connectivity extension with setting 3 new metro lines to facilitate intra-movement.
- Soon to be introduced Jewar Airport which will become the largest airport in the country - a project that bestows corporates with limitless possibilities.
- The growing data centres and the upcoming freight hub will make Noida and Greater Noida not just the largest commercial hub in India, but across the world.

NOIDA- THE PERFECT PLAYING-FIELD FOR TECHNOLOGY.

Clean roadways, high-speed metro connectivity, progressively expanding infrastructure. There are numerous reasons that make Noida the next big hub for all IT and Electronic companies. But chief amongst those reasons is the cities innate drive to always stay future ready. Not just in terms of infrastructure, but also create young and talented reserve of human resource that the city harbours - making Noida a fast pace city that is designed to keep up with the fast pace world of technology.
